- Tidal pound capacities of over 400,000 lbs.
- Abundant inventory and year-round supply
- Holding tanks in proximity to Boston's Logan Airport
- Daily domestic & international shipments
- Unparalleled service & reliability

**PREMIUM QUALITY
MAINE LOBSTER**

**LIVE AND
PROCESSED**

PROCESSED LOBSTER

With its state-of-the-art HPP processing facility – located under an hour from company docks – Greenhead Lobster is able to offer the same premium quality of its live lobsters with its line of HPP processed lobster meat products – retaining the same sweet flavor, texture and taste as the day harvested.

BENEFITS OF HPP PROCESSING:

- HPP technology humanely processes lobsters
- Helps neutralize pathogens, ensuring high food safety standards
- Nitrogen frozen, all natural, no preservatives or chemicals

FROZEN, RAW LOBSTER TAILS W/SHELL

HPP processed individually quick frozen (IQF) tails in the shell. Ready to thaw and simple to prepare and serve in minutes. When cooked, tail meat slides easily from the shell, offering an appetizing presentation. Fresh caught taste and extended shelf life.

FROZEN, RAW CLAW AND KNUCKLE MEAT

HPP processed raw claw and knuckle meat is extracted entirely whole from the shell without heat. Offer “off-the-boat” taste, freshness, quality and shelf life.

FRESH OR FROZEN STEAM-COOKED CLAW AND KNUCKLE MEAT

Fresh steam-cooked processed claw and knuckle meat is extracted entirely whole from the shell. Available May to December.

Frozen, steam-cooked processed claw and knuckle meat is extracted entirely whole from the shell, guaranteeing the same quality, taste and texture as our fresh. Nitrogen freezing locks in flavor and freshness.

Great for inventory management. Available year-round.

DRY STONINGTON SEA SCALLOPS

Day boat fresh, cold, clean water, dry Stonington sea scallops. Boat harvested, shelled, size graded and frozen all naturally with no water or additives.

Note: Greenhead Lobster LLC is fully FDA HACCP compliant. Which includes the U.S. Food & Drug Administration's mandatory seafood HACCP Regulation (21 CFR part 123) and satisfies the mandatory training requirements contained in (21 CFR part 123.10). Maine Lobster Processor Permit #12591
